Facility/Venue Name: _____

Person completing this form: _____ Date: _____

The Americans with Disabilities Act (ADA) requires that persons with disabilities must have access to public programs for services on an equal basis with the rest of the general public. Furthermore, federal law mandates that any program or service that receives federal or state funding must be accessible to persons with disabilities. The NAC is not only required, but also committed to ensuring that the programs and services we fund are accessible to persons with disabilities, including those with visual, hearing, mobility, and learning impairments.

Accessibility Checklist

Complete the following accessibility and accommodation checklist as the questions relate to your NAC grant proposal. If a question is not applicable to your project, check the N/A box. If your grant project will take place in multiple venues, fill out a checklist for each facility. This includes outdoor venues. NAC grantees are encouraged to develop organizational accessibility plans. For information about developing an accessibility plan, see page 7.
